1. Attached herewith please find a letter for the signature of the Director relating to personnel procurement for Project [redacted]

2. This project, which the Director, CIA, agreed to implement for the [redacted], involves the hiring of specialized personnel. To assure procurement of qualified individuals in this field, [redacted] has agreed to provide a representative to interview applicants. [redacted] unfortunately is not in a position to bear the expense of this trip and since it is most likely that a Naval officer will be chosen to make the interviews, some formal agreement must be made before orders will be written for the individual selected. This situation results from the organizational procedures of [redacted] which do not directly control military personnel on duty with them. The services controlling the personnel must write the orders and in this case these orders must specify that travel and per diem expenses are not authorized.

1. In an effort to arrange for the immediate implementation of the initial phase of "Project [REDACTED]" it is considered necessary to appoint a recruitment team to personally interview the many applicants who have responded to recent correspondence. It is believed that, in view of the interests of both agencies, the recruitment team should be composed of a representative from [REDACTED] and one from CIA. To expedite, the procurement of these required personnel, this Agency is willing to assume the obligation for payment of travel expenses and per diem incident to the itinerary of the team.

It would be very much appreciated if the name of the [REDACTED] representative could be conveyed to me at your earliest convenience in order that arrangements may be completed for an estimated four to six week's tour. If you concur, appropriate officials of both agencies can make final arrangements in connection with the proposed tour.
